Subject: 05.27.08 Marine Deployment Event Info & Remarks

Governor Palin,

Attached are the remarks and event info for the Marine deployment ceremony. I have included information about the Marines who are deploying that I think will provide you with valuable context. As they've rearranged the entire event due to the earlier deployment time, the ceremony now centers around your remarks, where before, your speaking role would have been paired with an awards ceremony. As such, the event will be considerably shorter, and I would recommend that, if your schedule permits, you spend 5-10 minutes meeting the Marines and their families. FYI, the average age of those being deployed is 21, 85% are single, 80% are first time deployed, and all are male. I will provide you with a briefing booklet tomorrow morning. Please let me know if you have any questions, and also, please thank Track for his service to our country. Happy Memorial Day!

Thank you,

Kate Morgan

Communications Coordinator

Governor,

I'd like to check with you about approving a 15 minute slot, tomorrow, Tuesday (Janice and Kris discussed the time frame) at about 2:30pm to invite Senator Bill Wielechowski to the Anchorage office to sign SB 185 (sex offender/registration) which is due Wednesday, May 28th.

Sen Wielechowski only has 2 bills this year and the other is SB 202 (REAL ID), which will most likely become law without signature.

If this is okay, I'd like to email an invitation to the Senator this afternoon to see if his schedule can accommodate the time.

Thanks for the consideration.

Kelly

Jolt Construction & Traffic Maintenance, Inc.

PO Box 520366, Big Lake, AK 99652-0366 • Tel: 907-892-5658/Fax: 907-892-7263
DBE Cert# 9802004/HUBZONE APPROVED

Steve Titus May 26, 2008
Northern Region Director

I am seeking assistance resolving an issue and getting paid for three different jobs my company completed last construction season for the Alaska Department of Transportation in the Northern Region. All three projects are being administered by Construction Project Manager Frank Ganley. The unpaid balances add up to a little over $80,000.00. The following is a brief synopsis of who we are and what we have experienced.

Jolt Construction is a Big Lake based road construction sub-contractor that has been in business 12 years, working on numerous AKDOT projects around Alaska. The three projects in question are the Parks Highway Rehabilitation MP 351-356 and the Richardson Highway MP 350 Badger Interchange where Jolt is under contract to Exclusive Paving and the Parks Highway MP 315-321 Signing Improvement where Jolt is the Prime Contractor. On all three projects Jolt was contracted to install the permanent highway signs specifically referred to as Item 615(1) Standard Sign. Using material, equipment and labor outlined and approved by the AKDOT, these signs were installed beginning in July 2007 and completely installed and punch-listed by the end of October.

Towards the end of this installation period State inspectors discovered white discoloration on the backside of numerous signs on all three projects. We all agree that the white staining is "oxidation." Understandably the AKDOT voiced concerns about the oxidation. These concerns turned into a State visit to Jolt's place of business to inspect the aluminum we use; to calls to Jolts suppliers; to letters stating we now didn't meet specifications, wanting a corrective action plan and withholding money. Jolt's response was and is, that the spec's have been met and were previously approved. That the signs are up and operating as designed and a white spot on the backside has no affect on its life or function. In the spirit of customer satisfaction Jolt offered to repair the backs of the affected signs. As requested by the AKDOT as another solution for acceptance, Jolt also supplied an additional warranty from the reflective sheeting manufacturer. Since that time we have heard nothing. Mr. Ganley refuses direct correspondence from Jolt and our numerous requests for a solution through his acceptable channels go unanswered. Jolt would be happy to forward all our letters as proof of our intent.

Last week Jolt's bonding company made us aware that Mr. Ganley stated to them his intent to place a claim against Jolt's bond. The bonding company was thus unable to bond a bid we were trying to submit to a new Northern Region project until the old issues were resolved. The result was only one company bid this job at a price more than double the State's estimate and Jolt lost out on a valuable piece of work we would have been the low bidder on.

We are seeking a reasonable resolution for all parties. We think six to eight months is enough time to figure this out and in some ways think the time span these signs have been up and publicly working on Alaska roadways is an implicit acceptance by the owner. Please assist us in resolving this issue.

Steve and Kathleen Cole
